Idea from a video
game “her story”

There will be a video
which is recorded
before.

Your question
decides which part
of the video will be
played.

You learn about the
story in your own
pace, like you are
engaged in a dialogue.

It’s a unique way to
interact with a narrative, a
sculptural way of viewing
a story — and something
that can only be done
interactively.”

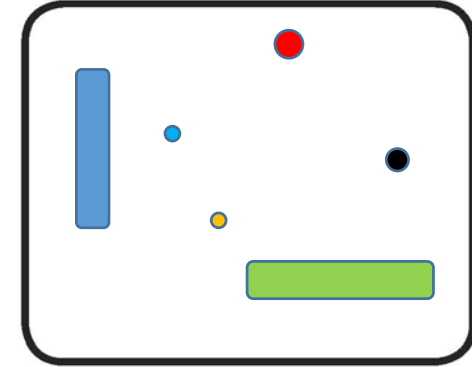

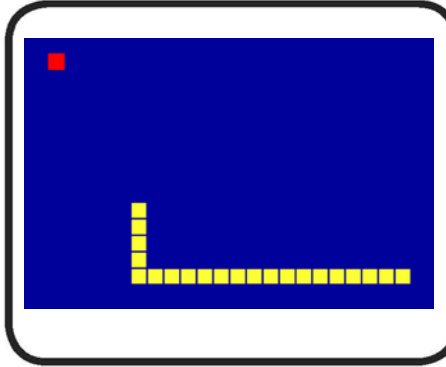

Combine interaction
with a event which
has happened.

And finally you may
have your distinct
opinion towards the
event.

The definition of
AVG

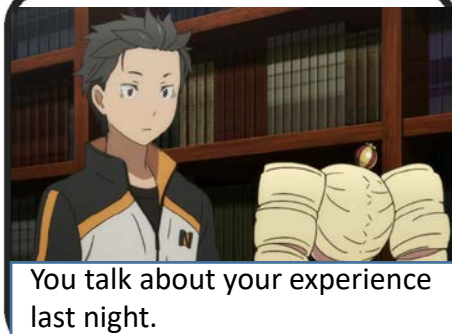

You need to make
choices influencing
the story (Picture
from google image)

In this game , your
choice decides if
you can finish the
story.

If you make a wrong
decision, you will die
(BAD END)

You talk about your experience
last night.

If you choose
correctly, you are
able to continue the
story.

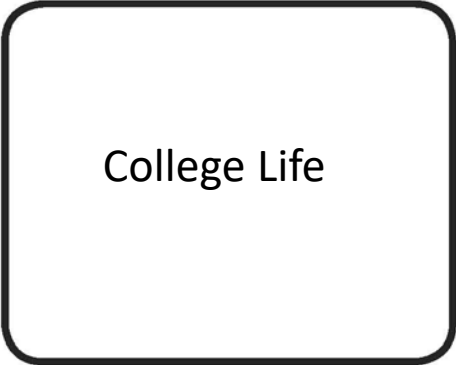

You would be able to
finish your adventure
and find a best end!

Name:

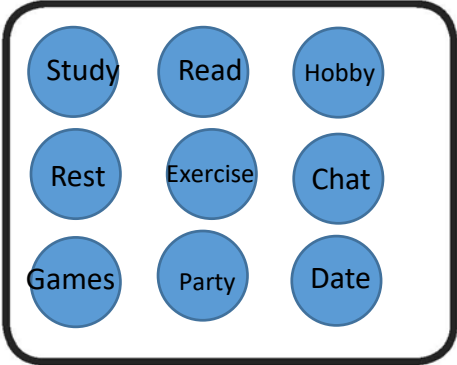

You are playing as
yourself, a college
student in the game.

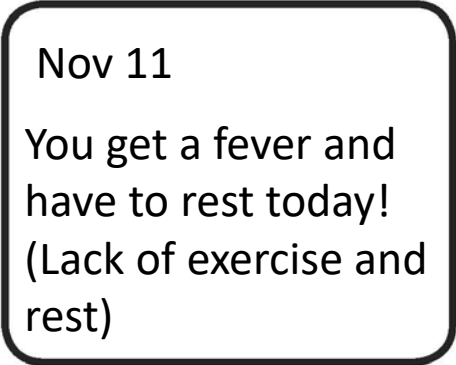

You will have your
schedule in the
beginning of the
game.

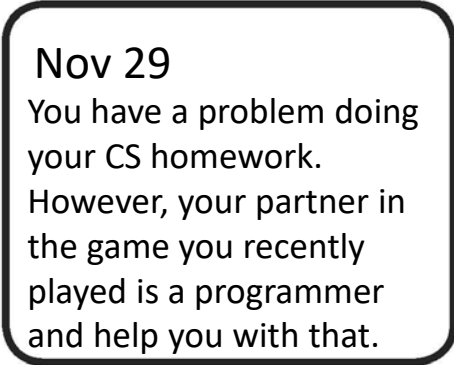

A calendar may
remind you of exams
and events.

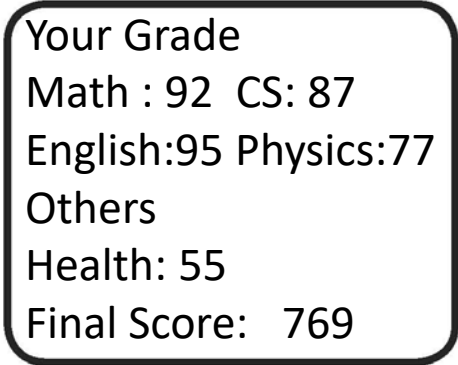

You need to decide
what to do each day

And sometimes you
have no choice.

Even playing games
may help you with
your study!

When the semester
ends, you will be scored
according to your grade,
health, relationship and
so on.
